Bernard Carr, cosmologist and friend of Hawking, on consciousness and parapsychology - Bernard Carr, cosmologist and friend of Hawking, on consciousness and parapsychology by Essentia Foundation 368,351 views 2 months ago 2 hours, 24 minutes - Our brains do not produce consciousness, they 'filter' it and consciousness is related to the higher dimensions in string theory.

Introduction

How did you get involved with parapsychology?

Bernard on trying to weigh a soul...

Is psychical research science?

The Enfield poltergeist claim

Are Psi phenomena real?

On the importance of true skepticism

Where are we in studying these phenomena scientifically?

Is having a scientific background a hindrance or a help when it comes to studying these phenomena?

In what sense are most scientists not 'believing' the phenomena?

On a post-materialist science

How does your notion of time relate to psi phenomena?

What is the relationship between time and consciousness?

Is time real?

What is the 'specious present'?

You might argue planet Earth is conscious

On the experience of time when falling

When the specious present seems to expand

How does the concept of the specious present explain certain psychic phenomena?
Natalia on the slowing down of time when falling off a mountain
Bernard on the movies Inception and Interstellar
Is time just a dial on our dashboard of perception?
When you either experience an eternal now or an eternal always...
On experiencing the transcendence of space and time
How do you interact with the world when you are in a different specious present?
How athletes are successful due to a specious present that is slowed down
What if our specious present is expanding?
Bernards view on the fine tuning problem
On the multiverse
Is there something before the Big Bang?
Hawking's theory about the origin of time
There must be a genesis of the universe, right?
God and the Big Bang
What is consciousness to you?
Are there actually 'laws' of physics?
Is a final theory possible?
How to fit consciousness - per definition the first-person experience - into science, which is about the third-person experience?
How to make a new physics that accommodates consciousness testable?
